

## **Campus Security Crime Report for 2015**

The crime statistics included in the Report are obtained from reports of crimes occurring for two discrete categories: campus, non-campus buildings or property.

Campus means any building or property owned or controlled by a school within the same reasonably contiguous geographic area used by the school in direct support of or in a manner related to its educational purposes or property within the same reasonably contiguous area that is owned by the school but controlled by another person, frequently used by students, and supports the school's purposes. Protégé Academy does not have a non-campus building or property which means any building or property owned or controlled by a student organization officially recognized by the school; and any building or property (other than a branch campus) owned or controlled by the school, that is not within the same reasonable contiguous area, is used in direct support of or in relation to Protégés educational purpose, and is frequently used by the students.

Protégé Academy obtains reports of crimes from students, other persons and local law enforcement agencies. A formal police report or investigation is not necessary in order for a reported crime to be included in the crime statistics in the Report.

Campus Crime Policy: Protégé Academy does not have a campus or security department of any kind. Protégé has no relationship with any state or local law enforcement agency and have no authority to arrest anyone. Protégé Academy students, employees, and other's visiting Protégé, whether victims or witnesses of crimes are encouraged to voluntarily, promptly and accurately report all criminal activity to Protégé officials and the appropriate law enforcement agencies. Students and others are directed to report occurrences involving crimes on Protégés premises to the school director, or, in case director is not available, to any other Protégé staff member. Reporters of crimes are asked to fill out and file an incident report with Protégés administrative office. Upon receipt of any report of a medical or criminal emergency, Protégé may offer to contact medical and/or security professionals for the persons affected. The method used to notify the campus community of the crime is dependent upon the nature of the crime and the immediate threat to personnel safety. Following a reported incident involving a crime, Protégé may require the reporting persons to confirm in writing the details of the crime and may contact and apprise local law enforcement agencies.

Protégé does not have any policies or procedures that: allow victims or witnesses to report crimes on a voluntary confidential basis; or encourage pastoral counselors, if and when they deem it appropriate, to inform the persons they are counseling of any procedures to report crimes on a voluntary, confidential basis for inclusion in the crime statistics contained in the Report.

The crime statistics for each of the previous calendar years (2014, 2013, and 2012) are included in the Report. On or before October 1st of each year, the Report is distributed or made available to Protégé students, prospective students, employees and prospective employees. Since Protégé does not recognize, operate or sponsor any off-campus student organizations, Protégé does not monitor or record through local law enforcement agencies any crimes occurring at off-campus locations of any student organization.
